Casings

High Performance Functional Packaging

We offer a wide range of flat Casings / Chub Film designed for cooking, shaping and presenting processed and cooked meat products. An ideal solution for cooked meats and puddings, our casings are available in a range of formats including; multilayer, monolayer and moulded which can all be printed using our High Definition 8 Colour Flexographic Printing Press.

Our range of specialist Casings are suitable for cooking and have shrink characteristics that will give a skin like appearance to the Chub Film after cooking. It can be provided printed or unprinted and 'cling' can be added to the film depending on the application.

Our Casing provide significant cost savings over traditional shirred casing and we can offer assistance in choosing the machinery best suited to your requirements.

Key Benefits

- ✓ Considerably less expensive than shirred casing when comparing metre per metre
- ✓ No need to soak prior to production
- ✓ Reduce storage space in comparison to shirred (One pallet of Chub Film can represent over 40,000m)
- ✓ Promotes efficiency and productivity in production

Features

- ✓ Material is calibre stable
- ✓ Material has Meat Cling which prevents fat purging
- ✓ Low oxygen transmission rate which maintains freshness
- ✓ Low water vapour transmission rate 'No weight loss over time'
- ✓ Excellent seal integrity
- ✓ Suitable for meat products, cooked hams, poultry and processed cheese
